Cleaning in the Hospital Lab, New Hampshire

Portsmouth, New Hampshire

Story Narrative:

Tell a story about your first job.

"My first job was working at Portsmouth Hospital in the cleaning department. I cleaned rooms but really the most fun that I did was I had to clean in the, don't say it's Portsmouth Hospital, I had to clean in the lab and there was always mercury spilled. Mercury is the coolest stuff if you drop it. It breaks into hundreds of pieces, so I used to play with mercury."
